1 Introduction
This is an example of the KorigamiK document class. Articles should always start with a section title, which will usually be ‘Introduction’ or some such.

This document demonstrates the features of the document class. Here are some logos and abbreviations: \TeX, \pdf\TeX, Bib\TeX, METAFONT, METAPOST, \LaTeX, \LaTeX2\epsilon, Con\TeXt, pdf\LaTeX

On the following pages are shown the document divisions and list environments.

2 Section headings

The fact is that his precocity in vice was awful. At five months of age he used to get into such passions that he was unable to articulate. At six months, I caught him gnawing a pack of cards. For seven months he was in the constant habit of catching and kissing the female babies. At eight months he peremptorily refused to put his signature to the Temperance pledge.

Text from Edgar Allen Poe’s ‘Never bet the Devil your head’.

2.1 Subsection

3 Conclusion

4 Lists

An itemized list:

- one,
- two, and
- three. A nested itemized list:
  - one,
  - two, and
  - three.

An enumerated list:

1. one,
2. two, and
3. three.

A description list:

**one** the first,

**two** the second, and

**three** the third. A nested description list:

**one** the first,

**two** the second, and

**three** the third.
